BENGAL SECRETARIAT LIBRARY

TO THE PRINTING TRADE IN INDIA.

IN introducing the present improved edition of their Illustrated Handbook and List of Prices of Printing Materials, which has been expressly prepared to meet the wants and for the convenience of their constituents in India, Messrs. GEORGE WYMAN & CO. would draw particular attention to the fact that their Establishment is the only one of its kind in all India, and, being in direct communication with the eminent London Firm of HARRILD & SONS, Messrs. GEORGE WYMAN & CO. are enabled to supply *from one source* every description of Material employed in the Art of Printing, of the best quality and of uniform character and make. Speaking with the knowledge derived from practical experience as Printers themselves, both in Europe and the East, they feel assured that so important a fact will commend itself to the Printing Trade in India, who will be able to appreciate the advantages, both in point of economy and convenience, that are thus secured.

The only Printing Material Repository in India.

Not only do Messrs. GEORGE WYMAN & CO. afford a facility of supply and *personal* selection, either of *items* or wholesale quantities, to any extent, in a variety hitherto unprecedented and nowhere else obtainable in India; but, in addition to the advantage of experienced assistance and advice in the selection of goods, Purchasers have also that guarantee of MODERATION OF PRICE, combined with EXCELLENCE OF QUALITY, which has always distinguished this Establishment and has procured for it so extensive a support and encouragement in India.

Moderation of price, excellence of quality, and unlimited assortment.

Messrs. HARRILD and SONS, being Engineers, Manufacturers, and Typographical Designers, in the fullest sense, are constantly introducing into their manufactures the most scientific improvements. In the latest supplies of Machinery received, many such have been effected, especially as regards simplicity of construction,—so essential in this Country. Those advantages Messrs. GEORGE WYMAN & CO. are enabled to offer to the Trade in India FREE OF COST, their prices for the supplies last received remaining as before.

Latest improvements introduced, and attended with no extra cost to Purchaser.

The Designs engraved on the last page of the Wrapper of this Catalogue, give a sketch-outline of Messrs. HARRILD'S Workshops. Their premises are visited by inquirers and those interested in the Trade, from all parts of the World. Many of the most valuable Improvements ever effected in Printing Machinery have been designed and manufactured on these Premises.

Valuable improvements in Machinery first introduced by Harrild and Sons.

Messrs. GEORGE WYMAN & CO. import to India Monthly supplies of these celebrated manufactures, Price Lists of which will be found hereinafter detailed, and the patronage with which Messrs. GEORGE WYMAN & CO. have been favoured, testifies that their efforts to consult the peculiar requirements of the Indian Trade are not unappreciated.

Monthly importation of Goods.

Messrs. GEORGE WYMAN & CO. beg to return their most sincere thanks for the confidence and support with which they have been hitherto honoured. The peculiar merits and uses of Printing Materials can only be appreciated in their several departments by those who have had to employ them, and Messrs. GEORGE WYMAN & CO. having been the first House in India to supply a desideratum long felt, they deem themselves entitled to renew their solicitations for a preference of patronage as the only Practical Printers in India in their particular branch of business.

Dealers in Printing Materials should understand Printing.

Communications addressed to GEORGE WYMAN & CO., Calcutta, will receive immediate attention.

LIST OF AGENTS.

For the convenience of our Constituents, we have appointed Agents at the following principal Stations, from whom every information can be obtained, and to whose care Goods can be forwarded to all parts of India.

ALLAHABAD	W. HONIGBERGER, Esq.

GEORGE WYMAN & CO., Printing Material Repository, CALCUTTA.

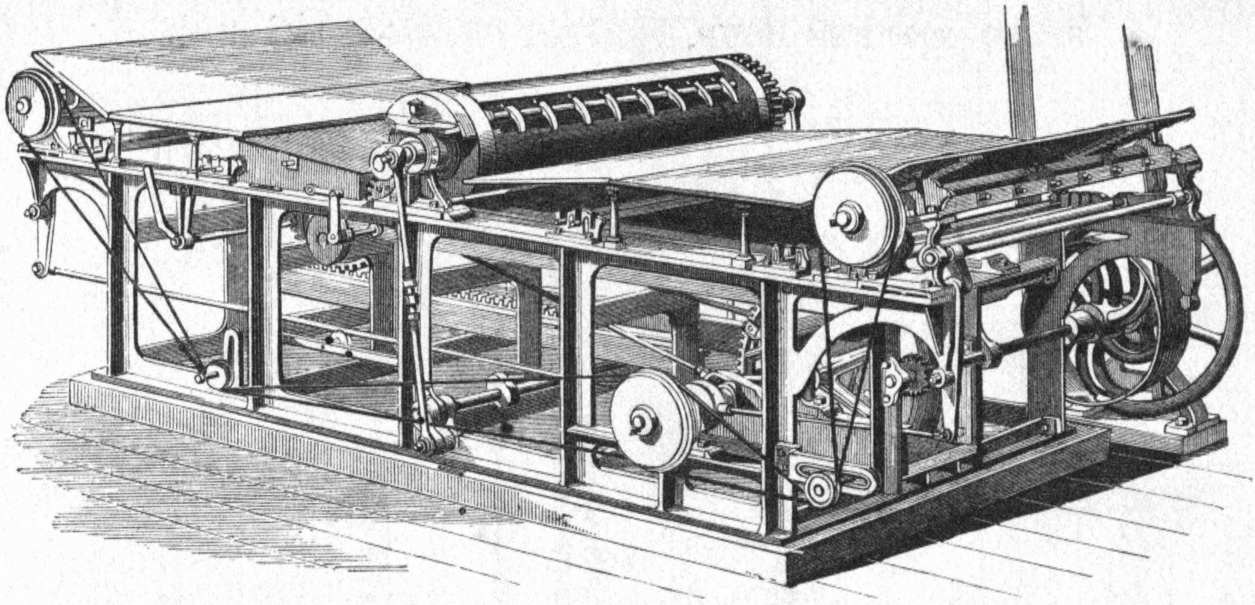
NEW PATENT TWO-COLOUR PRINTING MACHINE.

THE PRINCIPLE

MAIN'S PATENT ECONOMIC SINGLE CYLINDER GRIPPER.



THE PATENTEE HAS SUCCEEDED IN PRODUCING A MACHINE THAT HAS LONG BEEN REQUIRED IN THE PRINTING BUSINESS, VIZ.,

A SIMPLE YET EFFECTIVE MACHINE FOR PRINTING TWO COLOURS WITH ONE LAY ON.

THE SHEET TO BE PRINTED BEING LAID TO AN IMPROVED "FRONT LAY," IS TAKEN AND RETAINED BY THE GRIPPERS UNTIL BOTH COLOURS ARE PRINTED,

THEREBY SECURING PERFECT REGISTER;

TWO JOBS MAY BE PRINTED AT THE SAME TIME, EACH IN DIFFERENT COLOURS, IF REQUIRED, THUS EFFECTING A

SAVING OF NEARLY 50 PER CENT. IN TIME,

WHILE THE QUALITY OF THE WORK IS IMPROVED, AND BETTER REGISTER OBTAINED THAN AT ANY OTHER MACHINE YET INVENTED.

THE MACHINES ARE STRONG, WELL MADE, AND FREE FROM ALL COMPLEXITY.

SPEED, FROM 700 TO 800 PER HOUR.

	Will Print.	Size of Table within the Bearers.	£	s.	d.

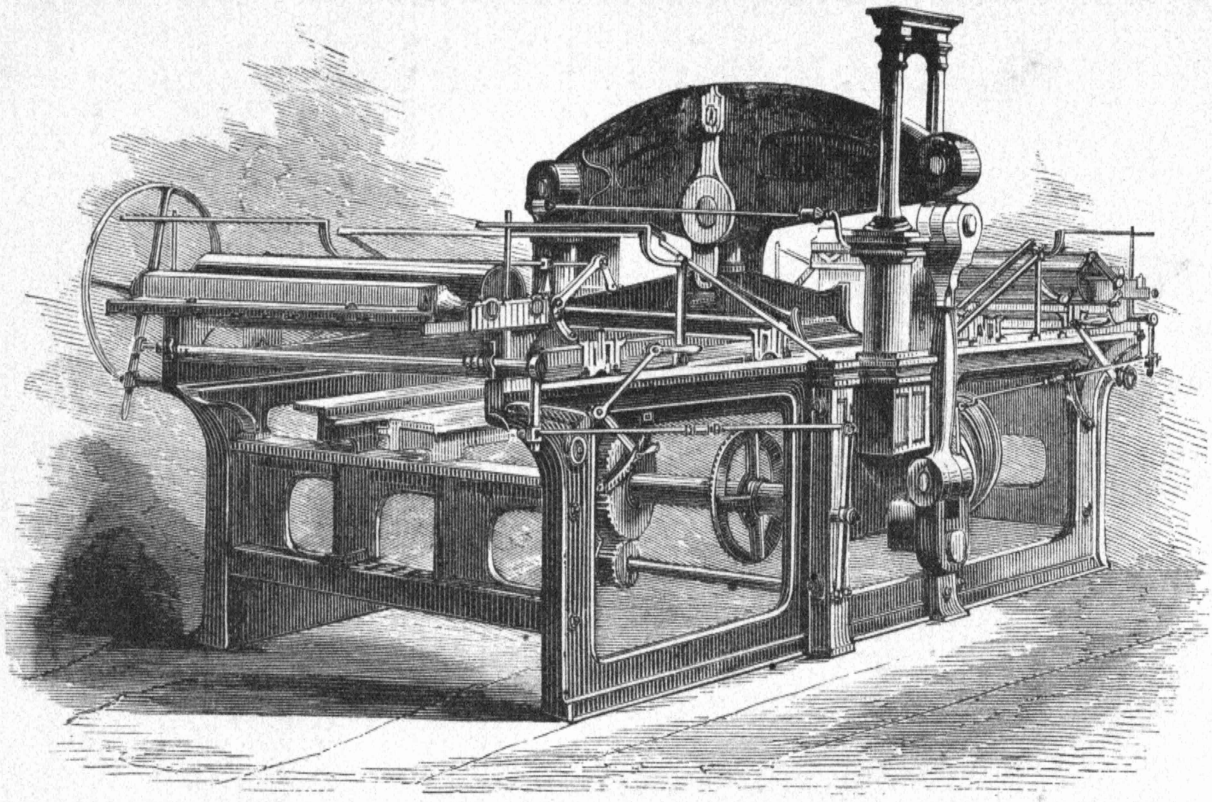
Agents for HARRILD & SONS, "Fleet" Works, LONDON.

IMPROVED DOUBLE PLATEN MACHINE,

FOR BOOK-WORK.



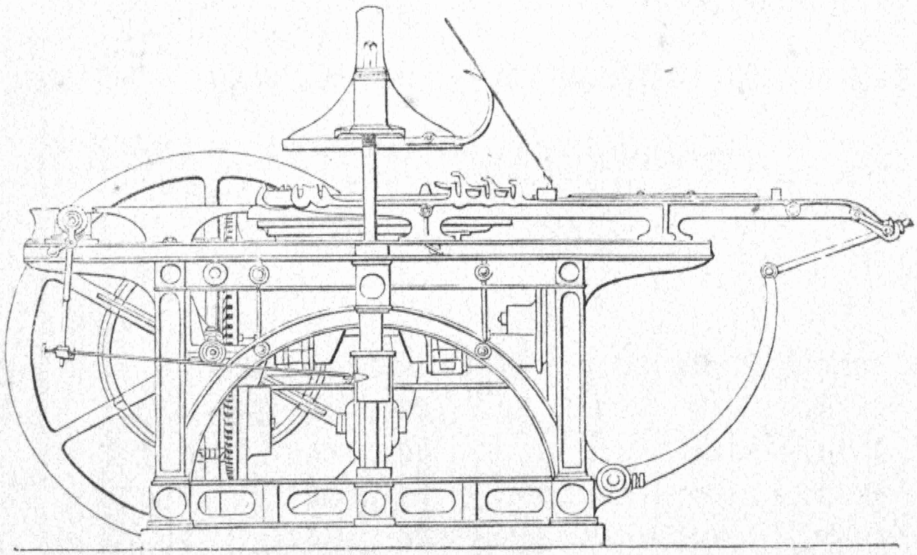
These Machines produce the Finest Description of Book-work, and are in use in most of the large offices; the accuracy and solidity of their manufacture prevent those breakages which are so frequent with flat-surface machines.

SPEED, FROM 1200 TO 1600 PER HOUR, GUIDED BY THE QUALITY OF THE WORK.

DOUBLE DEMY, Platen 35 inches by 22½ inches, £390.

IF FITTED WITH THE IMPROVED MOUSE DISTRIBUTION AT BOTH ENDS, £35 EXTRA.

PATENT SCANDINAVIAN PLATEN MACHINE.



These Machines are well adapted for First-class Woodcut work, and offer as great facility for making ready as the common Hand Press; the construction is extremely simple, and inking very excellent.

SUPER ROYAL, Platen 28 inches by 21 inches . . .	**£139**	**0**	**0**

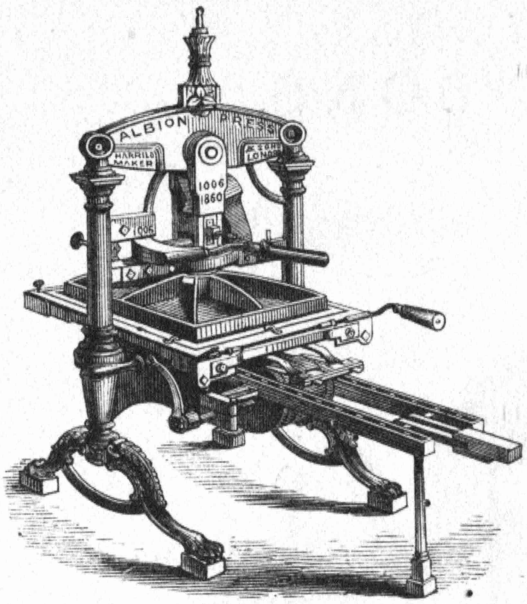
PRESS DEPARTMENT.

IMPROVED PRINTING PRESSES,

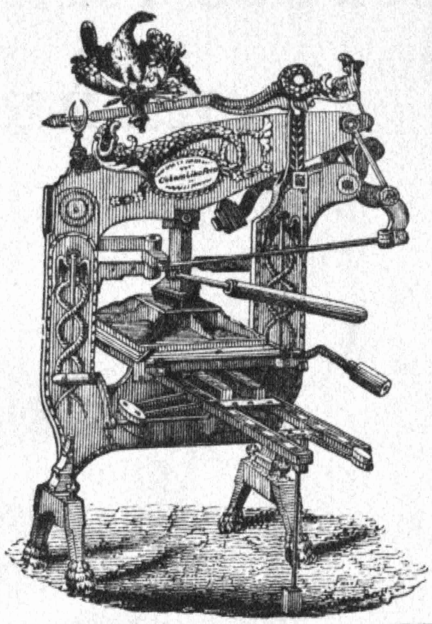
MANUFACTURED BY

HARRILD & SONS.

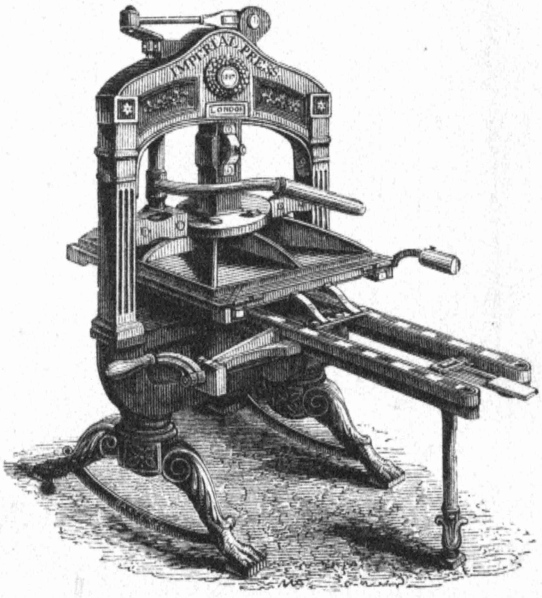
ALBION.



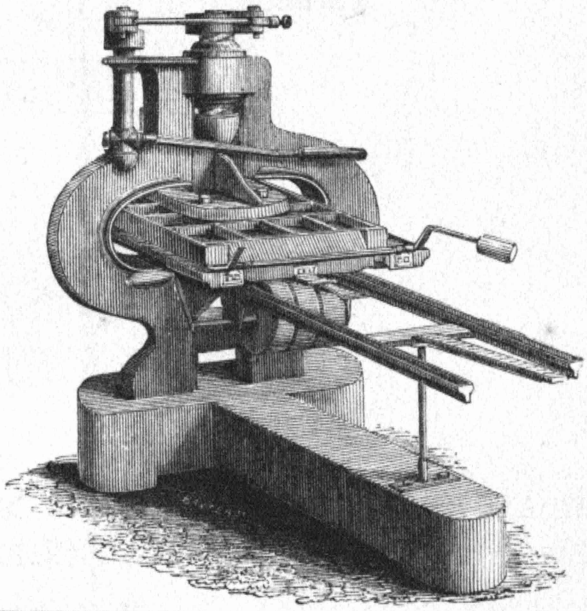
COLUMBIAN.



IMPERIAL.



STANHOPE.



PRINTING PRESSES.

Messrs. Harrild & Sons' Printing Presses are now preferred by the Trade to all others,—their exquisite finish and temper rendering them peculiarly suited to the Indian climate, while particular attention is also paid to the adjustment of the leverage, to increase facility of working. The following are our rates—

	Size of Platen.			Rs.	As.	P.
Double Crown, Improved . .	34 inches by	22½ inches	. .	850	0	0
Super-royal Albion or Columbian	29 „	21 „	. .	785	0	0
Royal ditto . .	26 „	20½ „	. .	750	0	0
Demy ditto . .	24 „	18 „	. .	685	0	0

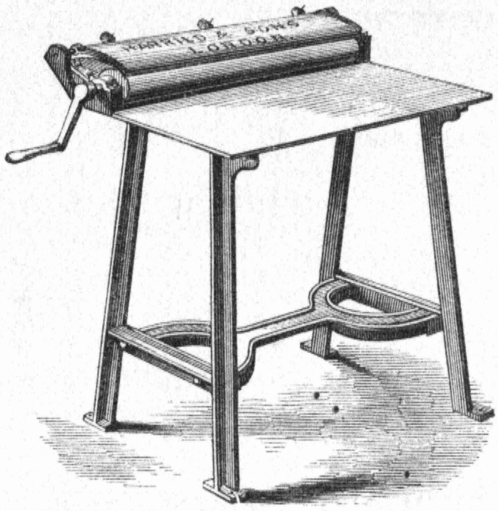
PRESS MISCELLANEA.

IRON INKING TABLES.

HARRILDS'
IMPROVED CYLINDER INKING TABLE.



There are many Printing Offices in India where the primitive Stone Ink Slab is still in use; but when it is borne in mind that the dust accumulating on the exposed quantity of ink that is in use, together with the grit induced by attrition, becomes amalgamated with the ink itself, and forms a species of fine sandstone, whereby the sharpness and surface of the type is destroyed, we think few will continue long to practice the false economy of an old Indian habit.

Double Crown .	31 by 15 inches .	110 Rupees.
Super Royal . .	25 „ 13 „ .	90 „
Demy	19 „ 13 „ .	70 „

HARRILDS'

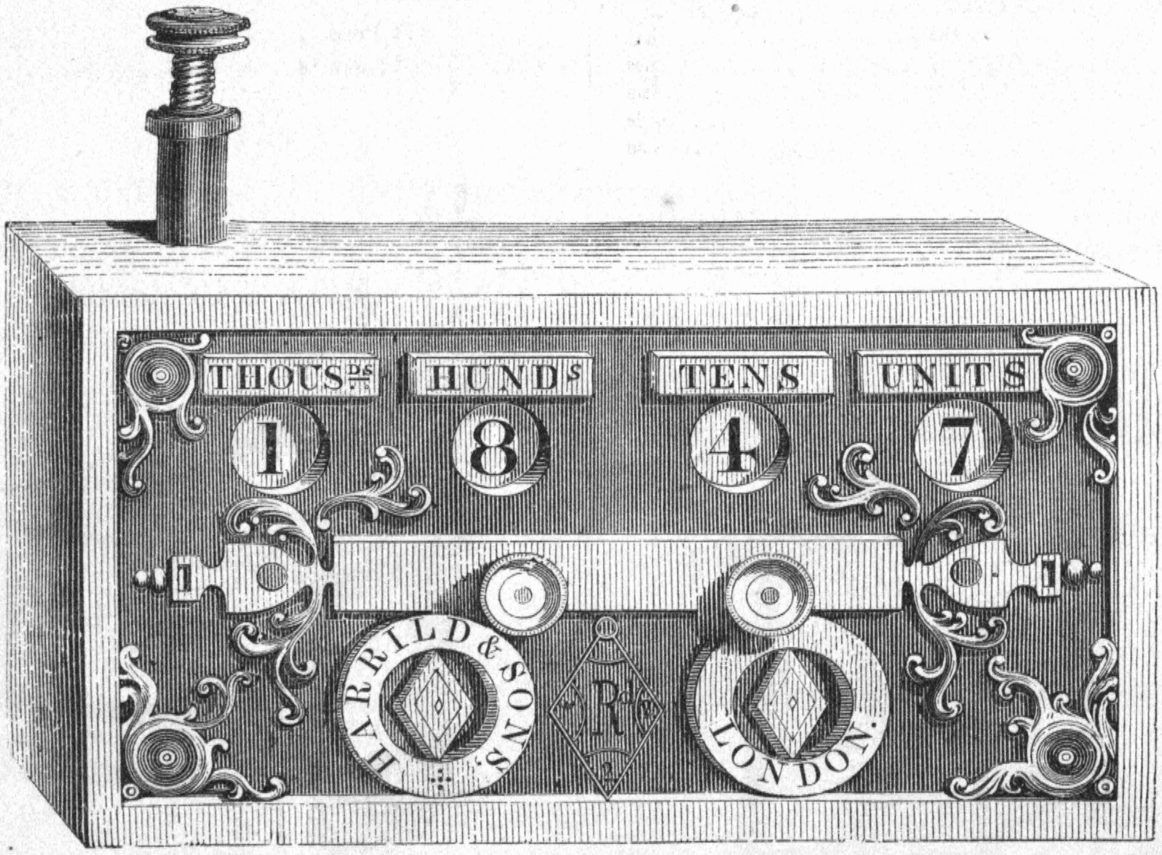
Ditto	ditto	Job „ . . .	3	8	0	—	2	8	0

PRINTERS' IMPROVED COUNTING MACHINE.



This Machine (which is the best extant) is intended to register the number of sheets as they are printed, to show the progress of the work at any moment, and when any certain number is completed; thus preventing, in many instances, the necessity of counting the paper before or after the operation, or, if counted, detecting infallibly any error that may have been made. It is very useful to indicate when the forme is to be changed in printing labels and other work where considerable numbers are printed on the same sized paper from different formes, also when a certain number of any impression is required before the whole is complete.

The representation above is the actual size of the machine, which can be placed on any Printing Machine or hand Press of ordinary construction in one minute, and as quickly removed to another, being so fixed that the projecting screw comes in contact, by pressing on it, with any moving part of the machine or press, which works the internal wheels, and registers to the number of 10,000, when the Machine is again set in the simplest way (see directions attached) to continue the counting.

Price Complete, Rs. 32.

ROLLER MOULDS.

	Rs.	As.	P.
Cast Iron Roller Moulds, beautifully bored and fitted, to open in two halves, with vice-handle dogs and stout screws.			
Super Royal	75	0	0
Demy	60	0	0

A good Roller is the first essential in order to secure good printing. Rollers made by our improved bore Moulds will be found perfect.

IMPROVED MELTING KETTLE.

	Rs.	As.	P.
Improved Melting Kettle and Stirrer	15	0	0

The underneath portion of the above is a hot-water reservoir, the upper part the receptacle for the composition.

Ditto Quadrats	,,	1	2	0

Parties ordering, are requested to state the maximum or minimum weight of the Plain, Figure, or Quadrat Fount they may require, to guide us in forwarding the exact quantity as near as may be.

ORNAMENTAL FOUNTS.

The publication of illustrated specimens of Ornamental Founts, Borders, and Ornaments has long been a necessity in this country; but hitherto it has not been found worth the while of any House to issue such. From the exclusive character of our business as Printers' Suppliers, however, and the immense extent of our connection, we are enabled to afford our Constituents the great advantage of a previous selection of the required Fount, Design, etc., so that each party ordering can consult his own taste; and, in nearly all cases, we are able to supply these articles in the smallest retail quantities, even to single items, as may be needed. Our Stock in this particular branch comprises, amongst other items too numerous to detail—

Antiques,	Borders,	Brass Rules of sizes,
Blacks,	Flowers,	,, Circles ,,
Elizabethans,	Centres,	Commercial Headings,
Rustics,	Corners,	Rules and Dashes,
Old English,	Ornaments,	Fillets, broad,
Clarendons,	Signs,	,, narrow,
Sans Serifs,	Arms,	Hands,
Skeletons,	Tail Pieces,	Horses,
Scripts,	Head ,,	Presses,
Titling Letters,	Ships,	Stereo Blocks,
Broadside ,,	Railways,	Long Braces,

And Masonic Emblems.

For Specimens and detailed Lists of these, see our Specimen Book of Ornamental Type, Borders, etc., etc.

IN THIS DEPARTMENT

WILL BE FOUND DETAILED

EVERY ESSENTIAL OF THE COMPOSING BRANCH OF A PRINTING OFFICE.

CASE RACKS.

	Rs.	As.	P.
Improved Case Racks, to hold 50 Pairs of Cases, made of the very best seasoned Teak	65	0	0
Ditto ditto to hold 35 Pairs	50	0	0
Ditto ditto Chase Racks, Royal size	40	0	0
Ditto ditto ditto Demy	32	0	0

CASES.

	Per Pair. Rs.	As.	P.
Superior finished London Machine-made Teak-wood Type Cases, warranted to stand the Climate	5	0	0
Double Cases, for Ornamental Founts	4	0	0
Treble Cases, ditto ditto	5	0	0
Frames of best seasoned Teak	11	0	0
Ditto, with Case-racks added	15	0	0
A Case, containing 43 divisions, and each division containing 1 dozen lengths of brass rule, very truly cut, and marked with figures, from 2 to 43 ems	30	0	0

Managers of Offices who have once used these Cases will never again resort to Native-made ones, to which they are *eminently* superior. A small selection has been manufactured expressly for our Constituents.

TEAK-WOOD FURNITURE.

At the solicitation of numerous Constituents, we have had manufactured to express order, by Machinery, "Furniture" of the best-seasoned Teak-wood. The complaints as to the irregularity of Native-made "Furniture" are universal in India; and the introduction of this substitute of *perfect accuracy* and finish, must, in time, entirely supersede the ordinary work of Native Mistrys.

The *Type-Bearers*, which we have also of *Iron*, are for bearing off the weight of the platten and frisket, and greatly preserve the edges of Type in a forme during printing.

	Per Doz. Rs.	As	P.
Double Broad, long lengths	5	0	0
Ditto Narrow	3	12	0
Broad	3	0	0

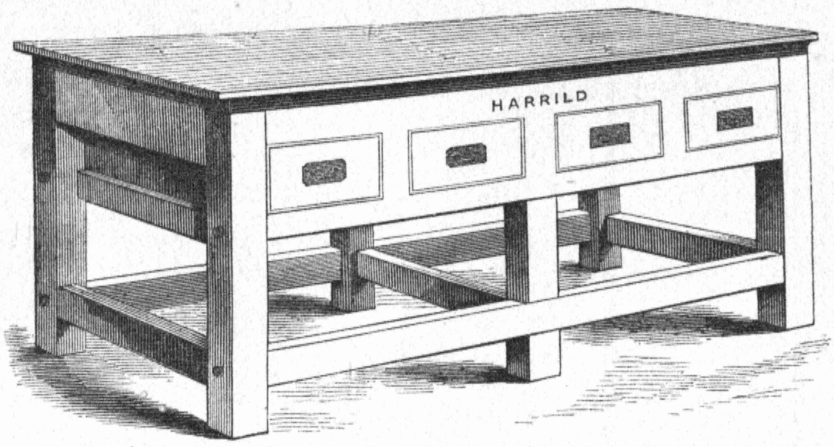
These are very economical and desirable for small Offices, and for standing Forms in large Offices.

JOB CHASES.

We have these in various sizes, suitable for Cards, Headings, Circulars, and the like. They are invaluable for small Offices. Parties ordering can specify the dimensions they may require; and from the very large quantity always on hand, we shall, in nearly all cases, be able to meet any requirements:—

Cast Job, Heading, and Broadside Chases of all sizes . . . per lb. 6 Annas.

IMPOSING IRONS AND STONES.



These are so far superior in every respect to the Stone Slabs so much in use in India, that we are certain the difficulty in obtaining them, heretofore experienced, has alone prevented their universal introduction in India. They are wrought to a perfect surface, and require only oiling to keep them, during almost any number of years, as good as new. The preservation of the type, by their use, repays their cost in a very few years. When not in stock, we shall be happy to procure them to order, at English rates, with actual charges, and a Commission of 10 per cent.

	Rs.	As.	P.
Royal, 30 inches by 24 inches	40	0	0

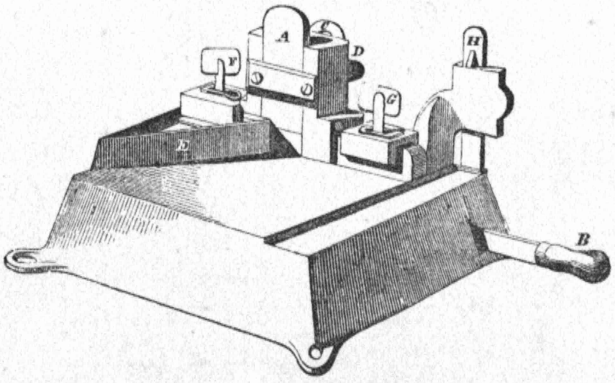
News Double Royal, 4 ft. by 2 ft. 7	95	0	0
Treble Royal ditto, 6 ft. by 2 ft. 7	125	0	0

The above rates are exclusive of Wooden Stands, but these we shall be happy to prepare to order if required.

IMPROVED MITERING MACHINE. Rs. 50.



A, Cutter for Squaring or Mitering Metal Rule; a shaving is taken off with each movement of the handle B, up and down; the thickness of the shaving is regulated by the screw C. The Cutter A. may be taken out to be sharpened by loosening the screw D.

E, Square for guiding the rule to be cut at the angles of 45 or 90 degrees. To cut the two sides of a miter, the square is removed from the screw F, to the screw G.

H, Chisel for cutting off the piece of rule to nearly the length required. The rule is cut by a slight stroke of the hammer; it is then mitered or squared by the cutter A.

HARRILDS'
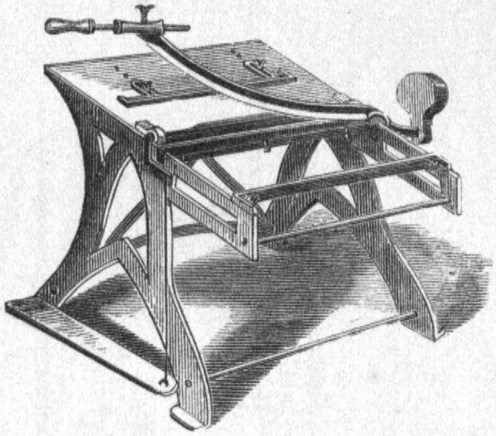
MILLBOARD CUTTING MACHINE.



Millboard and Card-Cutting Machines.

These are to Millboards and Cards what the Guillotine Cutting Machine is to Paper. The Millboard Machine is more especially useful in a Binder's Office, and the Card Cutting Machine in a Printing Office. By the use of the latter, sheets of Cardboard can be reduced to any given size, with perfect accuracy. To those who value the perfection secured by Machinery, over the inaccuracy and irregularity which invariably attends hand labour, these beautiful Machines will at once recommend themselves.

To Cut 28 Inches . . . . . Rs. 175

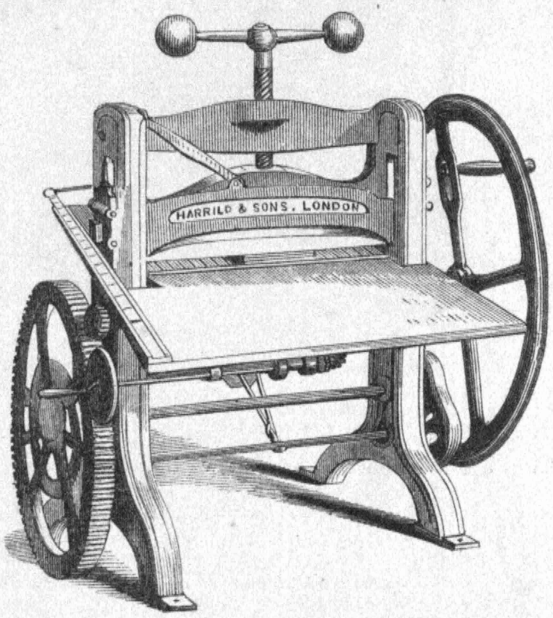
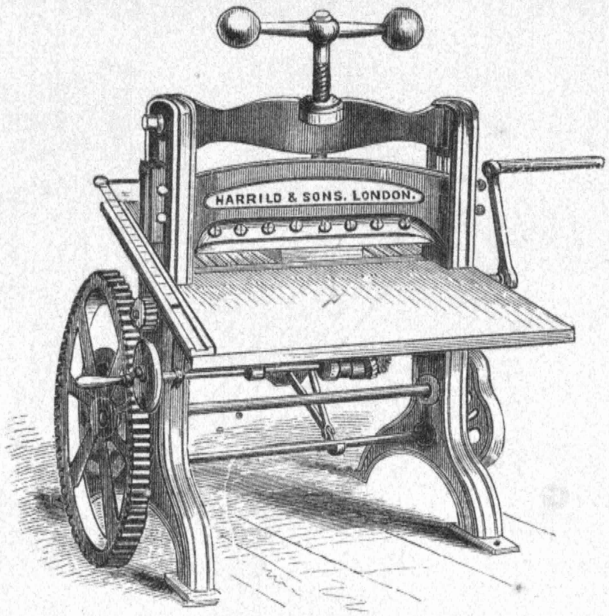
IMPROVED DIAGONAL AND VERTICAL

CUTTING MACHINES.



DIAGONAL.

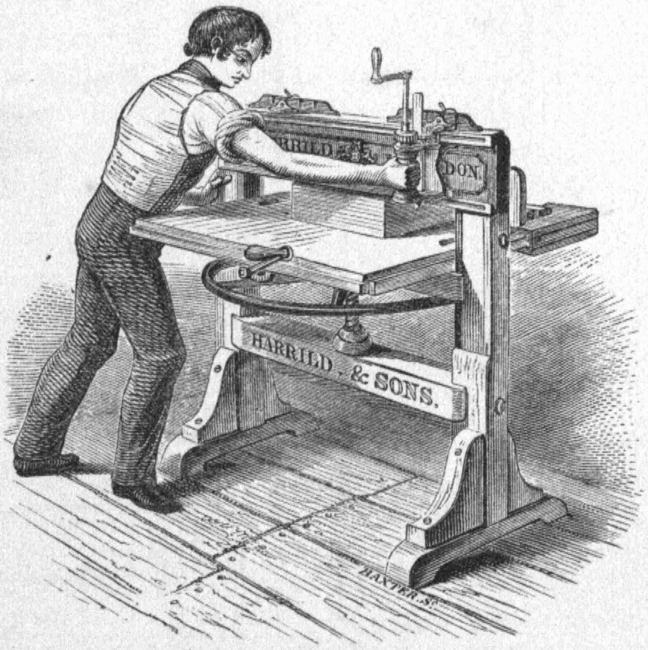


VERTICAL.

By the introduction, some years ago, of Wilson's Guillotine Paper Cutting Machine, it was believed that perfection in this description of Machinery had been attained. Within a few months however only, a startling improvement has been introduced by Messrs. HARRILD & SONS, whereby the Guillotine Knife is made to ascend by a continuous leverage action, after performing the work of cutting a book or sheets.

The danger thus of injury to the workman through carelessness or inattention, which existed before, is now entirely obviated, and a smooth and finely-polished edge to the thickest book is obtainable in a few seconds. As in this country the knives more frequently require cleaning than at home, we generally supply a duplicate knife to each machine. The prices of the two sizes mostly preferred are as follows:—

26-inch, with extra Knife - - - - - - - - -	**Rs. 650**
18 „ ditto - - - - - - - - - -	**„ 560**



HARRILD & SONS'
REGISTERED
PLOUGH CUTTING MACHINE.

This Cutting Machine is effective, simple, and compact, is calculated to cut with ease any kind of paper, card, paste, enamelled or glazed board, perfectly square, true, and smooth, the lowness of price brings it within the reach of all who may require paper cut or divided. The working parts are beautifully manufactured of iron, and firmly fitted to a strong wood-frame. The construction of the Machine is so simple, that it is not likely to get out of order, and the facilities of use so great, that it will soon save the cost in that of the time occupied in cutting. The knife is taken out in a moment, with the greatest ease, for grinding.

26 in. Machine, Rs. 180, complete; 36 in. Rs. 270.

N.B.—There are upwards of 400 of these Machines in use.

HARRILD & SONS'

IMPROVED PERFORATING MACHINE.

THESE Machines, which have the preference of others, are very simple, and easily used; the power is applied by an eccentric, worked by the foot, which decreases the labour, and punches the paper clean out, a round hole, leaving the workman with both his hands at liberty to hold and arrange the paper in course of perforation. The beam, to which are attached the punches, is raised by a spring under the bed, and can be regulated to any pressure required for their return. The Machine, which is elegant in appearance, is fitted up with French polished Table, and Back and Side Graduated Guides, which arrangement is found to be the most useful for general work. The 25-Inch admits a sheet of paper that width, and allows a 5-inch blank space, without perforation, for a length of counter-checks, without the removal of the punches, found to be so objectionable in other Machines, thereby saving time and the risk of re-adjusting them. The 30-Inch has a 10-inch space for counter-checks.

25-Inch Machine, on Iron Stand, to work with a Treadle motion			.	Rs. 260
30-Inch Machine	ditto	ditto	.	„ 320

N.B.—It is recommended that only three or four sheets should be perforated at one time, a greater number is likely, by constant use, to injure the punches by rounding the points, and therefore preventing their cutting out clean.

Hand Perforators . . . . . 10 Rs. each.

Agents for HARRILD & SONS, "Fleet" Works, LONDON.

HARRILD & SONS' PATENT NEWSPAPER ADDRESSING MACHINE.

Messrs. Harrild & Sons have recently invented this Machine, whereby the addresses for Newspapers, Pamphlets, Books, Envelopes, or other parcels by Dâk or Banghy, may be printed far more expeditiously than they can be written.

The names to be inserted on the address covers are set up in type on galleys, and the Machine being worked by treadle-action, the covers can be printed off rapidly. Where covers are in the habit of being despatched to the same addresses frequently, the advantage of this Machine cannot be too highly estimated. In India this is more especially the case, from the frequency of mistakes occurring by Native Writers.

There are few Newspaper and corresponding Offices in London that have not adopted this simple and economical method, and it will doubtless, in time, entirely supersede written covers, as it is found to save 50 per cent. of the cost of labour.

Price complete, with Roller, Inking Table, etc., Rs. 290.

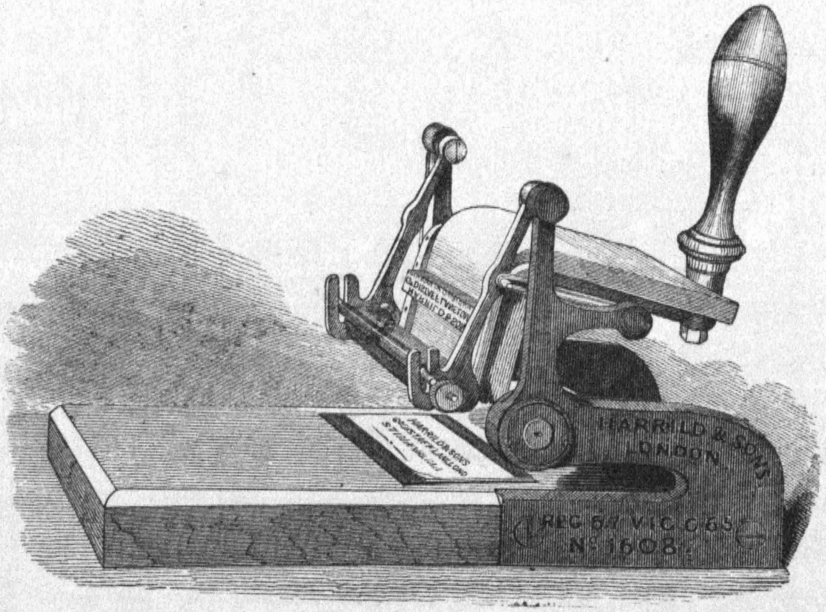
The Metal-bottom Column Galleys, adapted for this Machine, to contain the Addresses, are 27 inches long in the clear, and will hold 40 Addresses, set to Three Pica ems, and a Pica space between each Address, price Rs. 2 each.

Messrs. George Wyman & Co. will be happy to supply addresses set up in English or Bengali type, from time to time as desired, if requested.

HARRILD & SONS' REGISTERED PRINTING APPARATUS.

Printing with this little Apparatus is effected by laying the paper on the surface, and then simply bring the handle to a horizontal position, and pressing on the paper, the action of which not only effects the inking of the type or stamp, but the distribution of the ink and the printing. The Apparatus is calculated to print with any kind of hand stamp now in use—wood block or metal type.

The construction is so simple, that it may be understood at a glance, and the arrangement so free from complication as to prevent the chance of getting out of order. It is compact in appearance, and forms an ornamental appendage to the counting-house or office, occupying a space of only five inches by nine, and if required, less.



Price complete, with Inking Roller and Ink Fountain, with Brass Chase and Set Screws, No. 1 size, Rs. 30 each.

Important to Bookbinders, Printers, Stationers, etc.

HATTON'S

PATENT NIPPING PRESS.

The object of this Press is to supply a want that has long been experienced by Bookbinders, Printers, Stationers, Pattern Card Makers, and others, namely, a portable Pressing or Nipping Machine, with expeditious movement, convenient arrangement, and effective execution.

The above Press is respectfully submitted to the notice of the trade, with the full confidence that it secures these desirable objects, and the very flattering notice it has already received warrants an expectation of its general adoption.

The great utility of the machine may be gathered from the fact, that by a momentary arrangement it can be adapted alike to the pressing of a single sheet of paper to a bulk some three feet in height, or anything intermediate, without the use of Blocks or any of the old forms of packing. It is, moreover, very rapid in motion, and capable of applying great pressure without the introduction of further leverage than the standing machine supplies. There are other minor (but practical) advantages which only an inspection or trial of the machine can well elucidate.

Size and Price : 15 in. × 20 in.....Rs. 200

FURNIVAL'S

NEW PATENT UNIVERSAL JOB AND LABEL

CUTTING MACHINE.

GEORGE WYMAN & Co., Printing Material Repository, Calcutta, Agents for HARRILD & SONS, "Fleet" Works, Farringdon Street, London.

ESTIMATES.

ESTIMATE FOR A NEWS OFFICE,

TO PRINT A PAPER OF 4 PAGES, "ENGLISHMAN" SIZE.

TO CONTAIN 1½ PAGES OF ADVERTISEMENTS.

In submitting an Estimate for a Complete Office, whether News, Book, or Jobbing, it is impossible to enumerate every article required, as experience invariably shows that, however elaborate the selection, something of more or less importance has been omitted. A glance at our "Illustrated Catalogue" and "General List" will show the cost of any article not contained in these Estimates—and, on the other hand, any article *not* required can be left out.

In furnishing an Estimate for a Book Office it is necessary to have all particulars.

If the Office be Up-country, it would be desirable, when practical, to have the Wood-work made on the spot, as being more economical.

As regards the Ornamental Founts for display, we beg to call attention to our "Illustrated List," which contains every variety.

If a Machine, also, be preferred to a Press, the price and full description of the same will be found in the foregoing part of this Catalogue under its proper head.

LIBRARY

TO OUR CONSTITUENTS.

MESSRS. GEORGE WYMAN & Co., in introducing the present Specimen Book of Ornamental and Plain Types, Ornaments, etc., necessary for Printing, which they have had prepared at considerable cost, and with the utmost care, for the special requirements of their Constituents and the Trade generally in India, beg to state that Founts and supplies of these Materials are always kept in Stock, but in any case where the supply may have temporarily become exhausted, Constituents may rely upon orders forwarded being nevertheless promptly executed, as fresh supplies are received by almost every ship arriving in the Port of Calcutta.

The Prices of the Ornamental Founts vary from 1 to 4 Rupees per lb., and founts of weights from 3 to 25 lb. can be supplied; parties ordering, therefore, are requested to state the maximum or minimum weight they may require.

All orders intrusted to Messrs. G. W. & Co.'s care will be promptly executed, and their best endeavours will be used to give every satisfaction. Orders forwarded, accompanied by a remittance, will be subject to a discount of from 10 to 15 per cent., according to the amount.

CALCUTTA.
